

CENTRAL BANK OF
TRINIDAD & TOBAGO

October is Cybersecurity Awareness Month

Cybertips of the Week

- 28 Protect your sensitive data. **Private browsing** helps protect your sensitive data from being saved in your browser.
- 29 **Beware of unsolicited offers.** Never share personal or financial information over unsolicited calls, emails, or texts. Your financial institution will only use authorised communication channels.
- 30 Online shopping fraud is real. **Fake websites or sellers may offer unrealistically priced goods** with the intent of stealing your payment information upon purchase.
- 31 Be cautious of urgent messages! **Scammers try to create a sense of urgency** to force you to make a quick decision without sufficient thought.
