CENTRAL BANK OF TRINIDAD AND TOBAGO
QUARTERLY RETURNS (VERSION 4)
FOR INSURANCE COMPANIES

The Quarterly Returns (version 4) are to be completed by all insurance companies at the end of each quarter in accordance with section 61A of the Insurance Act, Chap. 84:01. A composite insurance company, (a company registered to write both long-term and other than long-term insurance business) must file separate returns for its long-term insurance business and other than long-term insurance business. Assets on the balance sheet are not to be apportioned between the long-term insurance business and other than long-term insurance business.

The Quarterly Returns (version 4) must be submitted within twenty (20) working days of the period to which the Quarterly Returns relate. The Quarterly Returns (version 4) should be signed by an authorized officer of the company and forwarded to the attention of:

The Manager
Research Department
Central Bank of Trinidad & Tobago
Eric Williams Plaza
Independence Square
Port of Spain.

The Returns should also be emailed to insurance_reports@central-bank.org.tt using PGP (Pretty Good Privacy) encryption software or other compatible software to preserve the confidentiality of supervisory information.

The Central Bank of Trinidad and Tobago, in these Returns aims at:

- Securing regular reporting on the financial condition and performance of all insurance companies;
- Ensuring consistent and standardized information among reporting institutions; and
- Aggregating data for the purpose of assessing the performance of insurance industry.

1. UNIT OF MEASUREMENT

All values are to be reported in thousands of TT dollars

2. TECHNICAL TERMS USED IN CB-20/1 REPORTING

Insurance Technical Terms are primarily based on The Insurance Act, 1980, International Association of Insurance Supervisors (IAIS) Glossary, European Insurance Glossary and International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS). In order to conform to these standards it is important that transactions between/with your institution and other institutions be properly classified. The compilation of money and banking statistics is based on The International Monetary Fund’s (IMF) methodology which calls for the sectorization of the economy between residents and non-residents and a further disaggregation of the “resident” sector. This methodology was also adopted for insurance companies to aid the compilation of financial statistics. In this document the terms in italics follow the IMF’s usage which differs from every day usage. Please consult with your instructions for the definitions of these terms.

2.1 Institutional Units

The sectors of the economy are composed of institutional units. Institutional units are economic agents which are capable of owning assets, incurring liabilities and engaging in transactions with other economic agents on their own behalf. Institutional units are centers of legal responsibility, able to make economic decisions and can possess (either explicitly or implicitly) a complete set of accounts including a balance sheet of assets and liabilities. There are two types of entities that classify as institutional units:

- Persons (individuals) or groups of persons in the form of households. In CB-20 reporting, transactions with institutional units acting in their capacity as individuals of households are included either under Consumers or Unincorporated Enterprises. In the case of Unincorporated Enterprises the actions (or accounts) of the owners of these businesses and the enterprise cannot easily be distinguished

- Corporations, Quasi corporations, Non Profit Institutions and Government Units. – Legal or social entities that have an existence that is recognized by law or society independent of the persons or entities that may own or control them.
2.2 Corporations

Corporations may be described by different names: corporations, public limited liability companies, public corporations, limited partnerships and so on. Since the laws governing the creation, management and operations of corporations vary from country to country it is impossible to give a universally valid definition of a corporation. However, the typical features of a corporation include:

- That it is a legal entity created for the purpose of producing goods or services whose existence is recognized independently.
- That it is collectively owned by shareholders (members of households, governments or other corporations) who have the authority to appoint directors.
- The existence of the corporation (its name and address) is usually recorded on a special register kept for this purpose.

2.3 Quasi Corporations

Quasi corporations are unincorporated enterprises which function as de facto corporations. A quasi corporation may:

- Either be an unincorporated enterprise that is operated as if it were a corporation and whose de facto relationship to its owner is that of a corporation. These include unincorporated partnerships which are operated as privately owned corporations (for example large accounting, legal and architectural unincorporated partnerships) and governments units which are engaged in market production and are operated as if they were corporations. Unincorporated partnerships employing more than ten (10) persons full time are generally considered to be quasi corporations. This is suggested as a guideline and not as an inflexible rule.

- Or an unincorporated enterprise owned by a non-resident entity which is deemed to be a residential institutional units because it engages in production in the country for a significant period of time. Examples of such quasi-corporations include the permanent branches of foreign corporate or unincorporated enterprises and production units which engage in significant amounts of production within Trinidad and Tobago a over significant period of time.

2.4 Non Profit Institutions

Non profit institutions are legal or social entities for the purpose of producing goods and services. The “non profit status” of the institution does not permit it to be a source of income, profit or other financial gain to those who establish, control of finance the institution. We may distinguish between the following types of non profit institutions:
- **Non Profit Institutions** charging market fees for the goods and services supplied. Such entities are classified as corporations or quasi corporations.
- **Non Profit Institutions** that are mainly funded and controlled by the government. Such entities are included in the *government sector*.
- **Non Profit Institutions Serving Households** – These are non profit institutions not else classified, which provide goods or services to their members or to other households at fees that are not economically significant. These include –
  - Trade union, professional or learned societies, political parties, churches or religious societies, social, recreational and sports clubs.
  - Charities, relief and aid organizations which rely on voluntary transfers of cash or kind from other *institutional units*.
Transactions with these kinds of institutions are treated as part of the **3.5 Consumer**

### 2.5 Residency

Residency is based on the *center of economic interest* of the transactor, rather than nationality, currency or legal definitions. An *institutional unit* has a center of economic interest within a country when there exists some location (dwelling, place of production, or other premises) within the *economic territory* of the country on, or from which, the unit engages and intends to continue to engage, in economic activities and transactions on a significant scale either indefinitely or over a finite but long period of time. The location need not be fixed so long as it remains within the economic territory.

An *institutional unit* has a center of economic interest in a country if the unit has already engaged in economic activities and transactions on a significant scale in the country for one year or more, or if the unit intends to do so. The conduct of economic activities and transactions *over a period of one year or more* normally implies a center of interest, but the choice of any specific period of time is not fixed. The *one-year* period is suggested *only as a guideline* and not as *inflexible rule*.

The *economic territory* of a country consists of the geographic area administered by a government within which, persons, goods, and capital circulate freely. Using the criterion of *center of economic interest* enterprises and individuals are considered to be *residents* of Trinidad and Tobago if they reside in Trinidad and Tobago for one year or more, and/or are considered to have their center of *economic interest* in Trinidad and Tobago. Thus, Trinidad and Tobago’s central and local governments, embassies and consultants located abroad, and foreign-owned corporations or quasi corporations engaged in economic activities for significant periods of time in Trinidad and Tobago should be considered resident *institutional units*. Individuals residing in Trinidad and Tobago for over one year and having a center of interest in Trinidad and Tobago are considered residents of Trinidad and Tobago. However, foreign embassies, consulates and their representatives, and international organizations located in T&T should be treated as non-resident entities.
2.5.1 General Guidelines on Residency

In most cases, you should have no difficulty in determining the residency status of individuals residing in Trinidad and Tobago for one year or more and having their center of economic interest in Trinidad and Tobago.

- It is important to note that if a resident household member leaves the economic territory and returns to the household after a limited period of time, the individual continues to be a resident even if he or she makes frequent journeys outside the economic territory. The individual’s center of economic interest remains in the economy in which the household is resident. The following categories of such individuals are treated as residents of the country in which their household reside:
  - Travellers or visitors - individuals who leave an economic territory for limited periods of time (less than one year) for business or personal purposes.
  - Workers or employees – individuals who work some or all of the time in economic territories that differ from those of their resident households. Such individuals comprise:
    - workers who may, because of seasonal demand for labour, work part of the year in another country and then return to their households;
    - (border workers who regularly (each day) or somewhat less regularly (e.g., each week) cross frontiers to work in neighbouring countries;
    - staff of international organisations who work in the enclaves of those organizations;
    - locally recruited staff of foreign embassies, consulates, military bases, etc.;
    - crews of ships, aircraft, or other mobile equipment operating partly or wholly outside an economic territory.

- An individual may cease being a member of a resident household when he or she works continuously for one year or more in a foreign country.
- A citizen of a foreign country that is employed by an enterprise that is owned by institutional units that are not resident in Trinidad and Tobago should be treated as resident of Trinidad and Tobago if he or she works continuously in Trinidad and Tobago for one year or more.
- Students should be treated as residents of their countries of origin, as long as they remain members of households in their home countries.
- Medical patients abroad are also treated as residents of their countries of origin, even if their stays are one year or more, as long as they remain members of households in their countries of origin.

2.4.1 Residency of Corporations and Quasi Corporations

A corporation or quasi corporation is a resident of a country (economic territory) when the enterprise is engaged in a significant amount of production of goods and/or services there,
or when it owns land or buildings located there. The enterprise must maintain at least one production establishment in the country and must plan to operate the establishment over a significant period of time. In this regard, the one year or more guideline is suggested to be applied flexibly.

3 SECTOR DEFINITIONS

3.1. General Government

Government units are entities established by political process which have legislative, judicial or executive authority over other institutional units in a given area. In the IMF’s System the government sector is typically broken down into the following subsectors:

- Central Government
- State Government
- Local Government
- Social Security Funds – Institutional units which can be found at all levels of government and which exist to provide social insurance. Such programs are intended to provide social benefits to the community out of funds derived from social contributions that are imposed and controlled by the government. These contributions usually involve compulsory contributions by employees or employers or both and the benefits paid to recipients are determined by governmental units.

In the case of residents, CB20 reporting also provides for the classification of transactions with -

- Other Government Bodies
  - Public Utilities
  - Statutory Boards
  - State Owned Non Financial Institutions
- State Owned Other Financial Institutions

Additionally to simplify the reporting on transactions with non-resident government units the CB20 groups such transactors into sectors as outlined below.

3.1.1. Central Government

Central Government consists of the institutional units making up the central government. It is important to note that the definition of non-resident central governments is wider that the comparable definition of the Trinidad and Tobago Central Government.

3.1.1.1 Resident

Include only transactions (accounts) on behalf of the Accountant General and of those funds which are directly under the responsibility of the Minister of Finance. The Central Government of Trinidad and Tobago also includes all Trinidad and Tobago embassies and consulates located elsewhere.
3.1.1.2 **Non-resident**
Include transactions with non-resident central governments and social security funds operating at the central government level. Transactions with non-resident institutions funded mainly by non-resident central governments are also included in this sector.

3.1.2. **State and/ or Local Government**
*State governments* are institutions units operating just below the central level and just above the local level. They are institutional units whose fiscal and legislative authorities extend only over the individual “states” into which the country is divided. Local governments comprise institutional units whose fiscal and legislative authority extends over the smallest geographical areas distinguished for administrative purposes. In many small countries there is no proper intermediate level between central and local government. Thus, State Government is not a relevant category. It is important to note that the definition of the Non-resident State and/or Local Government sub-sector is wider that the comparable definition of the Trinidad and Tobago’s Local Government.

**3.1.2.1 Resident**
Include the Port of Spain City Council, San Fernando City Council, Tobago House of Assembly, Borough Councils, Regional Corporations and Civic Centres.

**3.1.2.2 Non-resident**
Include transactions with non-resident state and/or local governments and non-resident Non-Profit Institutions funded mainly by state or local government units. Also include social security funds operating at the state or local level.

3.1.3. **Other Government Bodies**
Include transactions with the following kinds of institutional units in this sector:
- Public Utilities
- Statutory Boards and Similar Bodies
- State Owned Non Financial Institutions.

3.1.3.1 **Public Utilities**
This grouping is specific to reporting on the Trinidad and Tobago economy and is not relevant for non-resident transactors. *Public Utilities* are placed in the government sector because much of the debt of these institutions is guaranteed by the Trinidad and Tobago Government and their pricing policies may take public policy considerations into account.

**3.1.3.1.1 Resident**
Following is a list of Public Utilities as at December 31, 1994:
- Port Authority of Trinidad and Tobago
- Public Transport Service Corporation
- Trinidad and Tobago Electricity Commission
- Water and Sewerage Authority
3.1.3.1.2 Non-resident
Not relevant. Any transaction with non-resident corporation or quasi corporations in industries similar to those described in 3.1.3.1.1 Resident Public Utilities should be included under Non-resident Non Financial Institutions.

3.1.3.2 Statutory Boards and Similar Bodies
This grouping is specific to reporting on the Trinidad and Tobago economy and is not relevant for non-resident transactors. Statutory Boards have one or more of the following characteristics: they have been established by various acts of parliament; are non profit institutions funded mainly by the government and their pricing policies may not be market determined.

3.1.3.2.1 Resident
Appendix A2 presents is a list of Statutory Boards and Similar Bodies as at December 31, 1994.

3.1.3.2.2 Non-Resident
Not relevant. Any transactions with non-resident Non Profit Institutions funded mainly by non-resident governmental units are to be included either under 3.1.1.2. Non-resident Central Government or 3.1.2.2. Non-resident Local and State Government. Transactions with Non Profit Institutions serving Households are to be included under 3.5 Consumers. Transactions with non profit institution engaged in providing goods and non financial services at economically significant fees should be included in 3.4 Privately Owned Non Financial Institutions.

3.1.3.3 State Owned Non Financial Institutions
Stated Owned Non Financial Institutions include all corporations, quasi-corporations that engage in the production of goods and non financial services and are wholly (100 per cent) or majority (>50 per cent) owned by governmental units.

3.1.3.3.1 Resident
Include the transactions with all resident non-financial corporations and quasi corporations wholly owned or majority owned by the Trinidad and Tobago Government (excluding those firms listed under 3.3.1.1.1 Public Utilities). A list of these companies is provided in Appendix A3. Please note that because of the government’s active divestment program this list is subject to change. An institution belongs to this sector once its principal activities are the provision of market goods or non-financial services and it is wholly owned or majority owned by the Government of Trinidad and Tobago.

3.1.3.3.2 Non-Resident
Include all transactions non-resident non financial corporation and quasi corporations which are majority and wholly owned by central, state or local governmental units.

3.1.4. State Owned Other Financial Institutions
Include all transactions with Other Financial Institutions that are wholly (100 per cent) or majority (>50 per cent) by governmental units.

3.1.4.1 **Resident**
Appendix A4 contains a list of State Owned Other Financial Institutions.

3.1.4.2 **Non-Residents**
Include all transactions with non-resident state owned Other Financial Institutions that wholly (100 per cent) or majority owned (>50 per cent) by governmental units.

3.2. **Commercial Banks**

Include all depository corporations and quasi-corporations which have liabilities payable on demand, transferable by cheque or otherwise usable for making payments that participate in a common clearing system organized to facilitate the transfer of deposits between them by cheques or other means.

3.2.1 **Resident**
Include all commercial banks licenced by Central Bank of Trinidad and Tobago under the **Financial Institutions Act (1993)** to carry out “Banking business” or “business of banking”.

[See The Financial Institutions Act, 1993 Part II Section 4]

3.2.2. **Non-Resident**
Include all transactions with non-resident commercial banks.

3.3. **Other Financial Institutions**

Other Financial Institutions include the following types of institutional units.

- **Other Depository Corporations** – Corporations and quasi corporations that have liabilities in the form of deposits which may not be readily transferable or in the form of financial instruments such as short term certificate of deposits. These include corporations described as Savings Banks, Buildings and Loan Associations, Credit Unions, Mortgage Banks or Building Societies.

- **Other Financial Intermediaries** – Corporations and quasi corporations that may raise funds on financial markets but not in the form of deposits and use them to acquire other kinds of financial assets. These may include investment corporations, venture capital corporations, corporation engaged in financial leasing, hire purchase corporations and other corporations engaged in the provision of personal finance or consumer credit.

- **Financial Auxiliaries** – Corporations and quasi corporations such as securities brokers, loan brokers, flotation companies, insurance brokers etc. Also corporations engaged in discounts or refinancing by financial corporations and companies engaged in the arrangement of hedging instrument such as swaps, options and futures.
In the case of the “residents” sector, the CB20 also provides for reporting on transactions with Other Financial Institutions licenced by the Central Bank of Trinidad and Tobago under the Financial Institutions Act, 1993 to carry out “Business of a financial nature” [See The Financial Institutions Act, 1993 Part II Section 5]. See Appendix A5 for a list of these institutions.

3.3.1 Privately owned Other Financial Institutions
Include all transactions with non bank and other financial institutions that are wholly (100 per cent) or majority (>50 per cent) by private institutional units.

3.3.1.1 Resident
Include all transactions with privately owned resident licensed Commercial Banks, Finance Companies, Merchant Banks, Trust Companies, Mortgage Finance Companies, Building Societies, Thrift Institutions, Pension Funds, Credit Unions, Home Mortgage Bank and any other private financial institutions.

3.3.1.2 Non-Resident
Include all transactions with privately owned non-resident Other Depository Corporations, Other Financial Intermediaries, Financial Auxiliaries and Pension Funds.

3.4. Privately Owned Non Financial Institutions
Include transactions with all corporations, quasi corporations and unincorporated business whose principal activity individuals, households or any other private corporations or quasi corporations.

3.4.1 Incorporated Enterprises
See Section 2 for definition of corporations, quasi-corporations.

3.4.1.1 Resident
Include all resident private wholly (100 per cent) or majority (>50 per cent) corporations and quasi-corporations (commercial and industrial firms, branches of foreign companies and organizations of those companies) irrespective of the residence of the owners (shareholders).

3.4.1.2 Non-resident
Include all non-resident private wholly (100 per cent) majority (>50 per cent) Non Financial Institutions. Also include branches or agencies of international organization (e.g. Embassies, United Nations etc.).

3.4.2 Unincorporated Enterprises
See Section 2 for a definition of unincorporated enterprise.

3.4.2.1 Resident
Include all business firms which are not registered as an incorporated enterprise such as sole traders and small business partnerships and trading associations. Large unincorporated partnerships are likely to functions as
corporations and should be included in the 3.4.1. Incorporated Enterprise. Sub-Account 810501 – Loans to Spouses or immediate family of the insurance company’s Directors, Officers, Managers and Senior Managers.
Include all loans made to spouses or the immediate family of the Directors, Officers, Managers and Senior Managers of the reporting institution.

Sub-Account 8108 – Rescheduled Loans
Rescheduled loans are extensions of credit which have been rescheduled or otherwise modified at favourable terms and conditions for the borrower because of weaknesses in borrower’s financial condition and/or ability to repay.

Example:

a. If the repayment schedule has been lengthened with no change in the amount advanced because of an inability to meet payments under the existing schedule.

b. If the interest rate has been lowered to below contractual rates to accommodate the borrower’s payment capabilities resulting in a different repayment schedule and no new amounts have been advanced.

c. If the customer was not able to service one or more of several facilities, a grossing up of these existing facilities under conditions similar to (a) or (b) above constitutes a rescheduled loan.

Please note the following:

- In all instances the account must have been in arrears for a period of at least one month.
- Where either of conditions (a), (b) or (c) arises or an additional amount is advanced this additional amount will form part of the Rescheduled Loans balances for the purposes of this report.
- Report the total value of outstanding loans rescheduled during the reporting quarter. See (Items 810801 plus 810802) below.

Item 810801 – First Time Rescheduled Loans
Record the value of outstanding loans which have been rescheduled for the first time during the reporting quarter.
**Item 810802 – Loans Previously Rescheduled**
Record the value of loans which have been previously rescheduled.

**Sub-Account 8109 – Accrued Interest on Rescheduled Loans**
Record the total value of interest earned but not collected on rescheduled loans during the reporting month.

**Item 810901 – First Time Rescheduled Loans**
Record the value of accrued interest Written-off/Capitalized on loans rescheduled during the reporting month.

**Item 810902 – Loans Previously Rescheduled**
Record the value of accrued interest Written-off/Capitalized on loans which have been previously rescheduled.

**Sub-Account 8110 – Past Due Loans**
Past-Due loans, for the purpose of this Report, are loans with respect to which payments are not being made in accordance with the terms of the loan agreement. These loans include all loans, excluding policy loans, which are due for repayment but have not been repaid. In all cases, record the outstanding principal values (excluding interest) and Age these loans by the six period groupings as indicated on the Form.

**Sub-Account 8111 – Accounts Receivable Balances**
These include amounts due from agents, employees, other insurance companies, brokers, reinsurance, and related parties, aged from 0 to 45 days to over 6 months. Amounts due from insurance companies must be subdivided into subrogated balances, premiums and other balances.

Subrogated balances are amounts due from brokers and insurance companies for motor claims where the reporting insurance company pays their policyholder’s loss caused by that broker or insurance company’s insured driver, and is entitled to recover the amount of the loss from the other driver or the insurer.

**ACCOUNT 82 – MEMORANDA ACCOUNTS – LIABILITIES**
Include those Accounts which represent obligations by the institutions but which are not reported in detail in the Liabilities section of the Balance Sheet.

**Sub-Account 8202 – Due To Subsidiaries, Affiliates and Associated Companies**
Include the total of all loans received from and all other balances Due To subsidiaries, affiliates and associated companies. See Account 8103 for a full description of subsidiaries Affiliates and Associated companies.
Sub-Account 8204 – Investment Contracts

Record the value of total investment contracts (guaranteed investment bonds) disaggregated by residency and sector. Total Investment Contracts should be equal to Section 29 – Investment Contracts.

ACCOUNT 83 – OTHER MEMORANDA ACCOUNTS

Include in this Account the total number of persons employed in the reporting institution.

Sub-Account 8303 – Total Numbers Employed

Record the total number of employees of the reporting institution as at the end of the reporting period. The total numbers employed refers to all full time and part time employees other than temporary employees.

5. INTEREST RATES SCHEDULE

This schedule is to be completed by all insurance companies and details interest rates offered on investment contracts denominated in local (TT Dollar) and foreign currencies.

1A. INTEREST RATES CHARGED ON TT DOLLAR MORTGAGE LOANS

Prime Rate

The Prime Rate for each loan refers to the lowest rate charged on new loans granted to customers during the quarter. Report the Prime Rate prevailing as at the reporting date. Concessionary rates charged on loans to Government, rates on staff loans and other subsidized rates granted during the quarter should not be included in determining the prime rate.

Actual Loan Rates

Highest

Refer to the highest interest rate on new loans for the reporting quarter.

Lowest

Refer to the lowest interest rate on new loans for the reporting quarter.

For each Loan category, record the Number and Value of new loans granted within each rate band. These should include loans to government and other commercial customers at concessionary rates, but exclude loans at staff rates, which must be recorded separately under the heading Staff Loans.

For all other categories of loans, report in the respective interest rate bands, the number of loans and the value of loans granted for the reporting period.

Interest Earned
Refers to the total value of interest earned, whether collected or receivable, for the reporting period for each loan category. This includes both new and existing loans. Record in the space provided, the interest earned for the reporting period for each loan category.

1B INTEREST RATES OFFERED ON TT DOLLAR INVESTMENT CONTRACTS

Actual Rates
Highest
Refer to the highest rate advertised as at the reporting date.

Lowest
Refer to the lowest rate advertised as at the reporting date.

Record the Number and Value of all investment contracts falling within the corresponding interest rate bands, as at the reporting date. The sum of the Value column in each category should correspond to equivalent items in Account 29 Investment Contracts. For example, in the case of Investment Contracts with DPF the sum of the Value column should be equal to 2901 Investment Contracts with DPF.

Interest Expensed
Refers to the value of interest expensed for the reporting period for each category of Investment Contracts. Whether interest is paid quarterly or semi-annually, paid-out or accrued, only interest expensed for the quarter is to be reported. Record the Interest Expensed in the space provided for each type of investment contract.
