PUBLIC SEMINAR

GLOBAL ECONOMIC UPDATE AND PROBABLE IMPACT ON TRINIDAD AND TOBAGO

Thursday, March 2, 2023
10:30 A.M.

The global economy is expected to slow this year amidst tightening financial conditions as a result of the imposition of increased interest rates in response to higher inflation. The ongoing Ukraine crisis and fragility in financial conditions also weigh negatively on the global economic outlook for 2023.

This UN-facilitated Seminar brings together a high-level panel to enhance understanding of the impact of global economic conditions on Trinidad and Tobago's economy.

Join us for the live stream of this public seminar.
