

100

POLYMER BANKNOTE

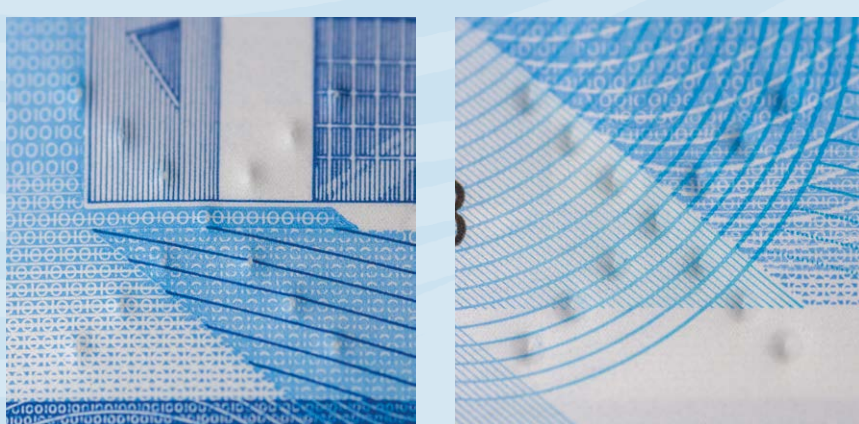

FRONT

REVERSE

FEEL

Polymer notes feel smoother than paper.

- 1 Run your fingers over the bottom corner of the note to feel the X.

LOOK

When you hold the note up to the light you will see:

- 2 A clear window that can be seen from the front and back of the note.
- 3 The number 100 appearing in the blue print.

TILT

As you move the note around you will see:

- 4 Areas with a shimmering gold ink.
